

Hire IT - Kidderminster - Forecourt Car Park - June 2018

Serfis Construction & Engineering Ltd have worked closely with local businesses for the last 40 years and continue to do so.

We were delighted to be asked to resurface the forecourt area of Hire IT, a local hire company.

Visible from the road and a busy forecourt, it was important that disruption to their business was minimal whilst achieving the highest quality surface.

Years of heavy traffic and commercial use had led to an uneven and cracked surface.

Damaged areas were removed and levels corrected, we resurfaced with a durable 10mm SMA surface course.
