

Stage 1 Oxford Station
was successfully
completed on Sunday 22nd
July 2018 in line with our
Client Sisk Rail and
Network Rails specification
and agreed deadlines.
Project size £160k

The project period was
three weeks, to minimise
any disruption or delays
to the public. Our thanks,
to the team for their
commitment and hard
work that required
working nights and
weekends, to meet
the deadline.
